

A NEW GENERATION OF LAW ENFORCEMENT SOFTWARE

Incident/Case Tracking

The incident is the main building block in ARTS Records Management. An *Event* is typically entered into the system by a dispatcher or call taker into CAD. From the moment the call for service is received, the dispatcher efficiently manages the event, tracking all activities and units involved in the call. A law incident is created on demand and uses basic *Event* information. Each incident can include an extended description, officers involved, officer activity log from CAD, UCR/NIBR offenses, name involvements (victim, witness, suspect, etc), property and evidence, digital images, citations, arrests, and unlimited officer narratives using Microsoft Word™ for Windows.

Integrated Case Management provides a method for supervisors to assign a responsible officer, review & manage workflow, and approve officer narrative reports that have been initiated through ARTS.

Case Management Features

- Extensive Agency Permissions and Security
- Permissions between agencies, ability to exclude at an officer or Agency level
- FULLY integrated into Incident Process
- Incident "Lock" capability – cannot view the Incident and/or associated Narratives
- Communication on a case is available at the touch of a button right from the Incident with built-in Case Comments
- Crime Element Capture
- Method of Operation capture
- Cleaner, quicker Statistical Gathering

The Supervisor

Supervisor Groups see officer reports they are responsible for with sorting mechanisms to filter quickly or pull up individual officer cases

- Case Notes can be entered
- Incident Status updates NIBRS elements too
- Next Review Date is entered for an easy reminder of what needs to be done
- A “W” in front of the case means there is a new supplement in the system that has not been reviewed/approved

The Officer

As an officer logs on, if he has pending Cases needing attention, the first screen he gets is all those cases assigned to him

- The officer enters *crime elements (NIBR/UCR crime reporting specifications)* as he does his report through the Case Wizard
- Easy Visual indicators of Case Status

Versatile and Easy to Use

The first time into a Case, the system walks the user through a *Wizard*. The system knows, based on the offense, what criteria is needed. ARTS intuitively presents needed elements to the officer making report writing QUICK & EASY!

Case Status	Agcy	Assigned To	Incident #	Rptd Date	Rptd Time	Next Review	stus / Disposit
Unassigned	02	JUSTIN	2004-00154	9/7/2004	16:44:16	0/0/0000	PENDING
Closed	02	JUSTIN	2004-00150	8/13/2004	10:52:59	0/0/0000	ASSIGNED
Unassigned	02	JUSTIN	2004-00149	8/13/2004	10:50:07	0/0/0000	ASSIGNED
Unassigned	02	JUSTIN	2004-00151	8/13/2004

New or Forwarded	02	JUSTIN	2004-00134	7/23/2004			
Submitted For Review	02	JUSTIN	2004-00135	7/23/2004			
New or Forwarded	02	JUSTIN	2004-00129	7/22/2004			
New or Forwarded	02	JUSTIN	2004-00124	7/22/2004			
New or Forwarded	02	RODGER	2004-00120	7/17/2004			
Unassigned	02		2004-00108	1/31/2004			
New or Forwarded	02	JUSTIN	2004-00112	12/30/200			

Officer Narratives tie directly to the incident using Agency Defined Microsoft Word™ Templates. The templates and subsequent reports are publicly named and stored by ARTS for easy retrieval. Built in agency defined narrative and case approval mechanisms as well as “Incident Locking” are EASY to use.
