**Jury**  
**v7.3.7**  
**April 2021**

---

**Fixes**

**Issue # 54977** – Removed option to delete Panel sequence 1, from a Control Year, from Jury Master Source Control. This caused an issue where you were unable to view qualification forms-panel after creating 2021 panel.

**Issue #56748** – Tenex voter file modifications. Updated the import file format to include the driver's license number.

**Bugs**

**Issue #56760** – Juror status was able to be changed to an incorrect status causing the record to become stuck. Corrected functionality.

**Reports**

**Issue # 36572/36573 Jerome** – Qualification form printing line 5 when option wasn't selected and printing a second blank page. Updated parameters to correct the issues. Report JY0142J

**Issue # 39889** – Request to list panel reporting number instead of master source number- Enhancement Implemented

**Issue #48947** – Qualified notice prints master source number. Modified to show juror number and jury wheel sequence number. Report JY021P

**Issue # 54548** – Typographical corrections to Covid attachment. Report JYCVAPNL

**Issue # 54573** – Order to Appear printing on two pages. Modified format to allow report to print on one page. Report JY0117B

**Issue #56259** – Verbiage changes implemented on Jury Summons. Report JY011J

**Issue #56443** – Voir Dire prints addresses when selection box not checked. Modified report to properly recognize selected options. Report JY003DW
